OfficeConnect™ MiTeam for MiCollab

Leverage MiTeam to chat, share and meet from anywhere and break down the barriers of siloed team environments.

A Highly Collaborative Workspace for Team-Based Meetings

Extend MiCollab's advanced capabilities and equip your employees with MiTeam, a work stream communications and collaboration tool that organizes ideas, action items, decisions and documents in one location for better team management. MiTeam enables around the clock communication for colleagues through virtual rooms that offer a seamless and open environment where teams work together and get projects done faster.

MiTeam's Real-time Project Management Capabilities

- Start impromptu or scheduled meetings and work together anywhere you are
- Provide real-time commenting and annotations that all team members can view
- Approve and sign documents for quicker project turnaround
- Easily organize teams by assigning project tasks from anywhere, on any device
- Seamlessly synchronize everything relevant to a team with Streams

Productivity and Collaboration on Any Device

Enjoy a mobile first design and a single, unified experience with MiTeam available on PC, MAC and mobile devices.
