

“I love the Web based administration, which I can do even from home. Especially on long weekends where I have to let the phone system default to the auto attendant ...”

Larry Daryanani | Operations Manager

Summary

Company Name

RMXC, Inc.

Number of Phone Users

20

Industry

Radiology

About

RMXC is a distributor of X-ray equipment and supplies, and has been in the industry since way back in 1984.

Digital and analog medical imaging distribution

Established in 1984, RMXC, Inc. (Roentgen Medical X-Ray Company) is one of the largest distributor of digital and analog medical imaging products & services in the United States. Offering thousands of items representing over 100 U.S. and international manufacturers. Agfa, Carestream Health, Fuji, Konica, Quantum, Summit Genesis & MCI and more.

Expensive growing pains

Before UniVoIP RMXC had phone service through Verizon & AT&T. “We grew through the years and also bought out companies. Their telephone numbers got routed to us. By the time the Univoip came on-board, we had a very complicated phone system setup and were looking to simplify what we had” says Larry Daryanani, RMXC Operations Manager “We also were faced with outrageous monthly telephone expenditures, which we were looking to reduce”.

Unified Communications and big savings on communication costs

UniVoIP Officeconnect is fully hosted in the cloud and adding locations and users to the system only takes minutes.

UniVoIP connected all phone numbers and locations into one unified system that can be administered from anywhere using only a Internet browser.

By switching to UniVoIP phone solution RMXC saved over \$500 a month / \$6000 per year.

Feature rich and easy to use

“I love the Web based administration, which I can do even from home. Especially on long weekends where I have to let the phone system default to the auto attendant. There have been times I’ve done this from home” says Larry Daryanani, RMXC Operations Manager. “Our old system was a really old PBX at the back of the building where it was constantly a challenge to use it and get things done on it.”

One Suite Business Phone Solution

UniVoIP OfficeConnect® is an unbeatable cloud-based business phone solution for any size company looking for enterprise-class features, low-rate calling plans, reliability and quality at a low and predictable price. Designed with simplicity and everyday business use in mind, OfficeConnect offers an excellent selection of monthly plans and phones to choose from.
